Professional Summary

Highly accomplished Senior Software Engineer with over 7 years of experience in architecting, developing, and scaling complex web applications and backend microservices. Proven expertise in C++, Python, JavaScript, and AWS cloud infrastructures.

Work Experience

Senior Staff Software Engineer at Tech Corp Jan 2021 - Present

- Led design and architecture of high-throughput candidate parsing engines, serving millions of active users.
- Wrote clean, production-grade microservices in Python and C++ to optimize runtime efficiency by 40%.
- Configured CI/CD pipelines, Docker containers, and monitored cloud environments on AWS.

Software Engineer II at Web Solutions 08/2018 - 12/2020

- Developed responsive user interfaces using ReactJS, Redux, and modern JavaScript standards.
- Built RESTful API endpoints using NodeJS and Express, integrating MySQL and Redis cache layers.
- Actively participated in Scrum and Agile sprints, driving product development cycles.
